

**U.S. Environmental Protection Agency
Conducting a Review of the Cleanup of the GEMS Landfill
Superfund Site
Gloucester Township, Camden County, New Jersey**

The EPA is conducting a five-year review of the cleanup of the GEMS Landfill Superfund site to ensure that the implemented cleanup continues to be protective of public health and the environment and is functioning as designed. This is the EPA's third five-year review of the cleanup for this site. The EPA will review site operations, maintenance and monitoring information, as well as the status of any land-use controls. Project information is available online at <http://www.epa.gov/region02/superfund/npl/0200627c.htm>.

The EPA welcomes community input concerning this site, especially any concerns about the implemented cleanup. Written comments should be sent before December 31, 2013, to the EPA Project Manager for the site, Stephanie Sessoms-Midgett, at the address listed below. Should you have any questions related to the five-year review process or the GEMS Landfill Superfund site, please contact either:

Stephanie Sessoms-Midgett
Remedial Project Manager
